Health Insurance

As a student enrolled in a full-time program at Cambrian, you have mandatory health insurance (covered by Morcare). Insurance coverage runs annually from September 1 to August 31. Rates included in your *tuition and ancillary fees* cover this period only and may be prorated based on your start date. You will automatically be included in the health insurance plan for the current academic year, depending on your first term of registration in the Academic Year.

- **Domestic students** have the option to opt-out of this insurance, providing they can provide proof of alternative Health Insurance. Dates for opting out are sent out during your post-registration communications. *Part-time students have the option to opt-in with a written request sent to tier3@briancollege.ca.
- **International students** do not have the option of opting out of insurance coverage.

Additional insurance fees will be applied in any semester that extends beyond August 31.
